Thank you Judith.

I can set-up the call-in info and add the below folks to the Outlook invites.

We can use the following call-in info:

1-866-299-3188

Code: **Ex. 6 - Personal Privacy**

I'll look to put together agendas for the meetings in advance, but we'll spend most of the time clarifying and discussing the questions we sent over already for Olin and Oxy Chem. We'll also look to send questions for Chemours and Branham in advance of 9/20.

Best,

-Robert

Thanks Robert, been glued to the Weather Channel as Hurricane Harvey devastates those poor people.

Let me run these dates/times with the teams, but I think they will work.

Stay tuned,

Judith

Hi Judith- I hope you're having a good week so far.

Here are the dates that work best for our folks:

Oxy Chem Weds, 9/6 at 11 am

Olin Chem Thurs, 9/14 at 3 pm

Chemours and Branham Corp, Weds, 9/20 at 11 am

Do these times work for you? Were folks planning to do a conference call or visit in person? A call would be fine and I can arrange if I can get the emails of the participants.

Thanks!

Dear Robert,

Most folks are back from vacation so I've been able to confirm the following meeting possibilities:

Olin - Thursday/Friday, September 14/15 (preferably Thursday but only between 2 - 5pm)

Oxy - Wednesday/Thursday September 6/7

Chemours and Branham Corp, gasket supplier to Chemours - Wednesday, September 20 (it's the earliest we can schedule)

Please let me know which day you'd prefer for the Olin / Oxy meetings and time; I'll send them confirmations shortly thereafter.

Thanks a million and have a great weekend,

Judith

Dear Robert,

This may be a bit precarious, as we had a difficult time securing the proposed date. I'll reach out and get back with you; it may not be until the end of the week; some folks are still on vacation.

Thanks a million,

Judith

Hi Judith- I hope you are well. I've been out on vacation. . .

If we can do the meeting sooner than that it would be great considering the aggressive schedule with the problem formulation document. Is that possible? Maybe shortly after Labor Day? I will soon send a follow-up message on chlor-alkali.

Thanks.

Dear Robert,

Hello from balmy but beautiful Louisiana.

Chemours and their gasket supplier would like to meet with you and your team to discuss their processes. Would you and your team be available September 20? We are developing a narrative and hopefully an infographic much like we prepared for the C/A process.

Thanks a million,

Judith
